GEOTHERMAL FOR YOUR HOME

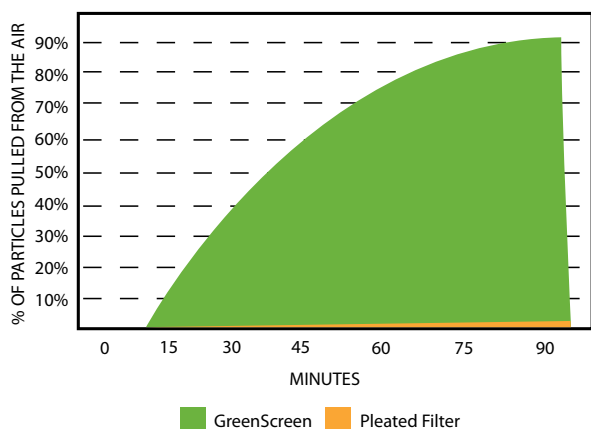

GREENSCREEN 2" ELECTRONIC AIR CLEANER

The GreenScreen 2300

The GREENSCREEN 2300 is designed to dramatically improve filtration performance through the use of "ELECTRONIC POLARIZATION" while at the same time minimizes pressure drop. The combination of these carefully engineered processes results in a highly efficient cleaner -- both from a filtration and energy perspective.

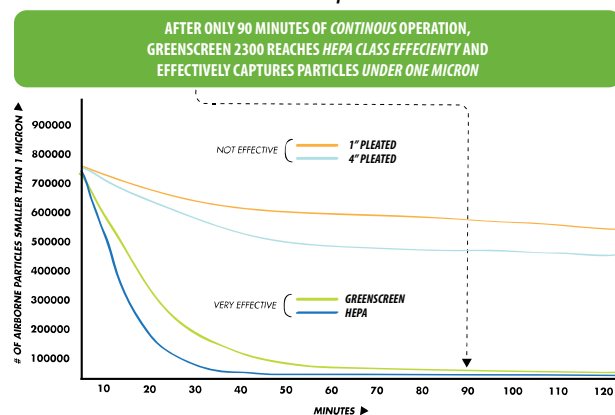

Performance Comparison Chart

Key Features

- High Filtration Efficiency
- Easy installation
- Low Pressure Drop
- Save Energy
- Simple Maintenance
- Easily replaceable media
- Fits all Tranquility TS and TT units.
- Captures microscopic toxins and chemicals
